Call open to be one of the WIE2022 award winners, sponsors, exhibitors or media partners

Media organization, water expert, researcher, business, international or national institution have a role to play at the Water Innovation Europe 2022 event, coming up on June 14-15, under the theme "What is the role of water in the net-zero society?". The call is now open to apply for your participation through 4 different categories to leave your mark on this year's edition.

With over 500 participants from all around Europe last year, Water Europe annual conference Water Innovation Europe has grown to become the landmark event of the European water sector every summer. The event brings together all the aspects of the sector: scientists and technology developers, utility representatives, large water users, European and national/regional policy makers and finance experts. Water Innovation Europe offers an open platform for information gathering and networking among the most influential stakeholders from within and beyond the water sector. Its objectives are to: Shape Europe's Water Future with op-note speakers of the water sector offering new perspectives and insights; to collaborate, debate and discuss with a targeted panEuropean audience; Connect, network and be part of the discussions with EU level decision makers and leading actors and companies from across the whole water value chain; Learn about new technologies, innovations and projects that will allow you to get the vibe of the current and future market trends and how you can take advantage of them; Contribute actively to achieve a Water-Smart Society.
