January 2023

Water Europe is pleased to invite you to Water Projects Europe 2023 event "Community of Practice for R&I and a Water-Smart Society". This WPE edition is organised in collaboration with PathoCERT, an EU-funded project aimed at increasing the ability of first responders to rapidly detect waterborne pathogens and ensure collaboration and coordination between the different actors during an emergency event. Water Projects Europe will also feature speakers from WATER-MINING and ULTIMATE projects.
