September 2023

The 1st International Conference on Coastal Reservoirs and Sustainable Water Management will be held by Hohai University in Changzhou in November 6th-9th, 2023. Coastal reservoirs could provide a solution to the water problems of many coastal cities, but their successful development faces various challenges. These challenges require close cooperation between scientists, engineers, water resources managers and policy makers. In this regard, the conference will provide a forum bringing together participants from academia, consulting firms, local, provincial and national government agencies, and offering them an opportunity to interact in an informal and relaxed environment. The conference will provide students an opportunity to discuss with renowned and well-established researchers and professionals in this field.

Closing date for receipt of in-depth abstracts is 15th September 2023Â -Â contact: iacrr@hhu.edu.cn
